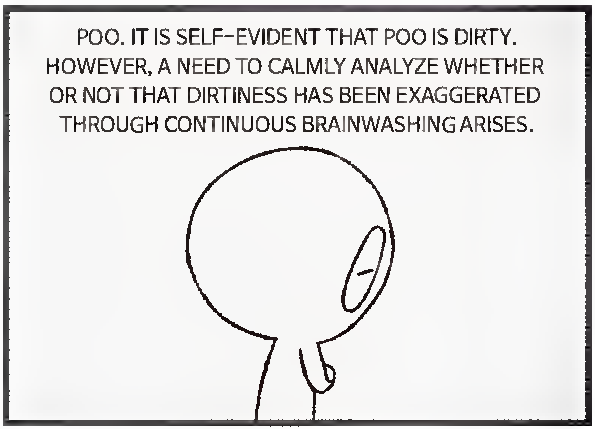
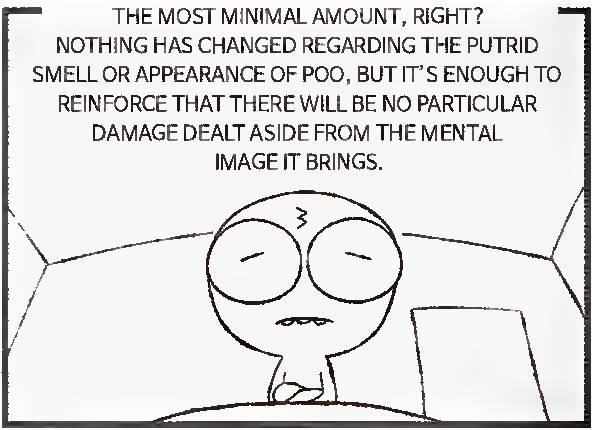
LV. WISDOM



POO. IT IS SELF-EVIDENT THAT POO IS DIRTY.
HOWEVER, A NEED TO CALMLY ANALYZE WHETHER
OR NOT THAT DIRTINESS HAS BEEN EXAGGERATED
THROUGH CONTINUOUS BRAINWASHING ARISES.

THE MAIN COMPONENTS OF POO ARE FIBER, PROTEIN, NITROGEN, POTASSIUM, PHOSPHATE AND SO ON. IT'S ALL FINE UP UNTIL HERE, BUT THEN THE BACTERIA THAT HAVE FOLLOWED OUT FROM THE INTESTINES TOGETHER ARE COLLABORATING AND EMITTING A NOT-SO-PLEASANT SMELL, AND IT'S NOT GOOD FOR KEEPING HYGIENE BY ALL MEANS. HOWEVER, THAT'S NOTHING TO WORRY ABOUT. YOU CAN SIMPLY WASH IT ASAP. WHAT LITTLE THAT IS ABSORBED THROUGH THE SKIN OUGHT TO BE THE MOST MINIMAL AMOUNT, RIGHT? NOTHING HAS CHANGED REGARDING THE PUTRID SMELL OR APPEARANCE OF POO, BUT IT'S ENOUGH TO REINFORCE THAT THERE WILL BE NO PARTICULAR DAMAGE DEALT ASIDE FROM THE MENTAL IMAGE IT BRINGS.



THEREFORE, THE CONCLUSION IS...

SELF-RATIONALIZATION
THAT OFTEN BEGINS
WHEN YOU'VE DROPPED
YOUR PHONE IN THE TOILET.
